Northwest Science
Volume 78 (2005)
Author and Subject Index

AUTHOR entry headings are distinguished from subject entry headings by capitalization.

A
AGEE, JAMES K. *see* Regan and Agee, 1-11
Alaska
  parasites of juvenile flatfishes, Mole, 339-343
  red alder stand structure, Orlikowska et al., 111-123
  video monitoring of raptor nests, Lewis et al., 70-74
Alberta
  white spruce seed rain, Gilmore and Berger, 75-78
alders *see* forests
amphibians
  beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
ANTHONY, ROBERT G. *see* Cole et al., 313-321
_____. *see* Forsman et al., 294-302
anthropology
  wolf relocation, Ratti et al., S6-9
ANTOLOS, MICHELLE, DANIEL D. ROBY, and KEN COLLIS. Breeding ecology of Caspian terns at colonies on the Columbia Plateau, 303-312
aquaculture
  hatchery kokanee release strategies, McLellan et al., 158-167
ARJO, WENDY M., and DANIEL H. PLETSCHER. Coyote and wolf habitat use in northwestern Montana, 24-32
ARNESON, LAURA C., VINCENT J. TEPEDINO, and SHERI L. SMITH. Reproductive success of Baker's globe mallow and its association with a native specialist bee, 141-149
AUSTIN, JANE E., and WILLIAM H. PYLE. Small mammals in montaine wet meadow habitat at Grays Lake, Idaho, 225-233

B
BAKER, MICHAEL D., and MICHAEL J. LACKI. Forest bat communities in the east Cascade range, Washington, 234-241
bass *see* fish
bats
  eastern Cascades bats, Baker and Lacki, 234-241
bears
  a linkage zone for grizzly bears, Lukins et al., 168-172
  wolf relocation, Ratti et al., S37
beavers
  beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
  natural history of a wetlands engineer (book review), Gaines, 173
BEEMAN, JOHN W. *see* Gadomski et al., 48-58
bees
  Baker's globe mallow, Arneson et al., 141-149
behavior
  canid habitat use, Arjo and Pletscher, 24-32
  chukar and gray partridge food habits, Churchwell et al., 42-47
  Columbia Plateau Caspian terns, Antolos et al., 303-312
  habitat associations of mountain quail, Pope et al., 242-249
  migration of westslope cutthroat trout, Zurstadt and Stephan, 278-285
  road management and Roosevelt elk, Cole et al., 313-321
  swimming performance of bull trout, Mesa et al., 59-65
BERGER, CARRIE A. *see* Gilmore and Berger, 75-78
biodiversity
  Baker's globe mallow, Arneson et al., 141-149
  beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
  small mammals in wet meadow habitat, Austin and Pyle, 225-233
biophysics
  riparian condition and seston, Elliott et al., 150-157
bioremediation
  effect of mulch type and width on soil water and survivorship, Link and Bower, 334-338
  wolf relocation, Ratti et al., S1-76
  Yellowstone wolverine movements, Inman et al., 261-266
birds
  chukar and gray partridge food habits, Churchwell et al., 42-47
  Columbia Plateau Caspian terns, Antolos et al., 303-312
  habitat associations of mountain quail, Pope et al., 242-249
  red tree vole distribution, Forsman et al., 294-302
  video monitoring of raptor nests, Lewis et al., 70-74
BISSON, PETER A. *see* Elliott et al., 150-157
book reviews
  The Beaver: Natural History of a Wetlands Engineer (Muller-Schwarze and Sun), Gaines, 173
botany
  Baker's globe mallow, Arneson et al., 141-149
  catchfly, plant communities, and wildfire, Menke and Muir, 192-203
  flower and fruit production, Wender et al., 124-140
  light and substrate effects on seedlings, Chen et al., 101-110
  pine cone burning characteristics, Fonda and Varner, 322-333
  red alder stand structure, Orlikowska et al., 111-123
  white spruce seed rain, Gilmore and Berger, 75-78
BOWER, ALISON. *see* Link and Bower, 334-338
British Columbia
  light and substrate effects on seedlings, Chen et al., 101-110
BROCK, BRENT L. *see* Inman et al., 261-266
bryophytes
  postfire lichen and moss colonization, Eversman and Horton, 85-92
C
California
  Baker's globe mallow, Arneson et al., 141-149
  north-central Sierra fire regimes, Stephens and Collins, 12-23

Canada
light and substrate effects on seedlings, Chen et al., 101-110
white spruce seed rain, Gilmore and Berger, 75-78
CHEN, HAN Y.H., GORDON J. KAYAHARA, and KAREL KLINKA. Effects of light and substrate on planted conifer seedlings in coastal British Columbia. 101-110
CHURCHWELL, ROY, JOHN T. RATTI, and FRANK EDELMANN. Comparison of fall and winter food habits for sympatric chukar and gray partridge in Hells Canyon of Idaho and Oregon. 42-47
CISSEL, JOHN H. *see* Tollefson et al., 186-191
climate
chukar and gray partridge food habits, Churchwell et al., 42-47
interannual variability in growth, Hessl and Peterson, 204-213
light and substrate effects on seedlings, Chen et al., 101-110
migration of westslope cutthroat trout, Zurstadt and Stephan, 278-285
road management and Roosevelt elk, Cole et al., 313-321
COLE, ERIC. K., MICHAEL D. POPE, and ROBERT G. ANTHONY. Influence of road management on diurnal habitat use of Roosevelt elk. 313-321
COLLINS, BRANDON M. *see* Stephens and Collins, 12-23
COLLIS, KEN. *see* Antolos et al., 303-312
Columbia River
Columbia Plateau Caspian terns, Antolos et al., 303-312
upper Columbia River fishes, Gadomski et al., 48-58
conifers *see* forests
conservation
Baker's globe mallow, Arneson et al., 141-149
catchfly, plant communities, and wildfire, Menke and Muir, 192-203
a linkage zone for grizzly bears, Lukins et al., 168-172
wolf relocation, Ratti et al., S1-76
cougars
wolf relocation, Ratti et al., S37
coyotes
canid habitat use, Arjo and Pletscher, 24-32
coyote long distance movement within Rocky Mountains, Kolbe and Squires, 344-345
wolf relocation, Ratti et al., S38
CRAWFORD, JOHN A. *see* Pope et al., 242-249
CREEL, SCOTT. *see* Lukins et al., 168-172

D
DEAL, ROBERT L. *see* Orlikowska et al., 111-123
deer
wolf relocation, Ratti et al., S8-9, S21-27
demography
a linkage zone for grizzly bears, Lukins et al., 168-172
beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
Columbia Plateau Caspian terns, Antolos et al., 303-312
eastern Cascades bats, Baker and Lacki, 234-241
hatchery kokanee release strategies, McLellan et al., 158-167
interannual variability in growth, Hessl and Peterson, 204-213
small mammals in wet meadow habitat, Austin and Pyle, 225-233
wolf relocation, Ratti et al., S21-27, S31-35, S53-59
DeSIMONE, PETE. *see* Lewis et al., 70-74
diet *see* nutrition

E
ecology
beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
Columbia Plateau Caspian terns, Antolos et al., 303-312
effect of mulch type and width on soil water and survivorship, Link and Bower, 334-338
EDELMANN, FRANK. *see* Churchwell et al., 42-47
elk
road management and Roosevelt elk, Cole et al., 313-321
wolf relocation, Ratti et al., S8-9, S21-27
ELLIOTT, SCOTT R., ROBERT J. NAIMAN, and PETER A. BISSON. Riparian influences on the biophysical characteristics of seston in headwater streams. 150-157
environmental policy
wolf relocation, Ratti et al., S44-57
epiphytes
postfire lichen and moss colonization, Eversman and Horton, 85-92
ERBES, BRENT. *see* Lukins et al., 168-172
EVERSMAN, SHARON, and DIANA HORTON. Recolonization of burned substrates by lichens and mosses in Yellowstone National Park. 85-92

F
FIEDLER, CARL E. *see* Metlen et al., 175-185
FINNEY, MARK A. *see* Stephens et al., 93-100
fires
catchfly, plant communities, and wildfire, Menke and Muir, 192-203
fire severity in intermittent stream drainages, Tollefson et al., 186-191
north-central Sierra fire regimes, Stephens and Collins, 12-23
oak community and seedling response to fire, Regan and Agee, 1-11
pine cone burning characteristics, Fonda and Varner, 322-333
postfire lichen and moss colonization, Eversman and Horton, 85-92
understory fuel reduction ponderosa pine, Metlen et al., 175-185
firs *see* forests
fish
hatchery kokanee release strategies, McLellan et al., 158-167
migration of westslope cutthroat trout, Zurstadt and Stephan, 278-285
parasites of juvenile flatfishes, Mole, 339-343
smallmouth bass growth dynamics, Shrader and Weldon, 250-260
stray sockeye in Washington, Michael, 66-69
swimming performance of bull trout, Mesa et al., 59-65
upper Columbia River fishes, Gadomski et al., 48-58
FONDA, R.W., and J.M. VARNER. Burning characteristics of cones from eight pine species. 322-333
forest products
flower and fruit production, Wender et al., 124-140
forests
Baker's globe mallow, Arneson et al., 141-149
fire severity in intermittent stream drainages, Tollefson et al., 186-191

flower and fruit production, Wender et al., 124-140
interannual variability in growth, Hessl and Peterson, 204-213
light and substrate effects on seedlings, Chen et al., 101-110
north-central Sierra fire regimes, Stephens and Collins, 12-23
oak community and seedling response to fire, Regan and Agee, 1-11
pine cone burning characteristics, Fonda and Varner, 322-333
postfire lichen and moss colonization, Eversman and Horton, 85-92
red alder stand structure, Orlikowska et al., 111-123
red tree vole distribution, Forsman et al., 294-302
selective thinning effects on carabid beetles and spiders, Peck and Niwa, 267-277
Sierra Nevada forest floor characteristics, Stephens et al., 93-100
understory fuel reduction ponderosa pine, Metlen et al., 175-185
understory species as soil moisture indicators, Lookingbill et al., 214-224
video monitoring of raptor nests, Lewis et al., 70-74
white spruce seed rain, Gilmore and Berger, 75-78
FORSMAN, ERIC D., ROBERT G. ANTHONY, and CYNTHIA J. ZABEL. Distribution and abundance of red tree voles in Oregon based on occurrence in pellets of northern spotted owls, 294-302
FULLER, MARK R. *see* Lewis et al., 70-74
fungi
postfire lichen and moss colonization, Eversman and Horton, 85-92

G
GADOMSKI, DENA M., DAVID A. VENDITTI, T. CRAIG ROBINSON, JOHN W. BEEMAN, and ALEC G. MAULE. Distribution and relative abundance of fishes in littoral areas of Chief Joseph Reservoir, Columbia River, 48-58
GAINES, BILL. Book Review: *The Beaver: Natural History of a Wetlands Engineer* (Muller-Schwarze and Sun), 173
geochemistry
understory species as soil moisture indicators, Lookingbill et al., 214-224
geography
canid habitat use, Arjo and Pletscher, 24-32
coyote long distance movement within Rocky Mountains, Kolbe and Squires, 344-345
a linkage zone for grizzly bears, Lukins et al., 168-172
migration of westslope cutthroat trout, Zurstadt and Stephan, 278-285
pygmy rabbit habitat, Simons and Laundré, 33-41
red tree vole distribution, Forsman et al., 294-302
stray sockeye in Washington, Michael, 66-69
upper Columbia River fishes, Gadomski et al., 48-58
wolf relocation, Ratti et al., S3-5
Yellowstone wolverine movements, Inman et al., 261-266
geology
effect of mulch type and width on soil water and survivorship, Link and Bower, 334-338
Sierra Nevada forest floor characteristics, Stephens et al., 93-100
understory species as soil moisture indicators, Lookingbill et al., 214-224
GILLESBERG, ANNE-MARIE. *see* Ratti et al., S1-76
GILMORE, DANIEL W., and CARRIE A. BERGER. NWS Notes: White spruce basal area as a predictor of seed rain during an exceptional seed year in northwestern Alberta, 75-78
GOLDENBERG, NEAL E. *see* Lookingbill et al., 214-224
grasslands
catchfly, plant communities, and wildfire, Menke and Muir, 192-203
effect of mulch type and width on soil water and survivorship, Link and Bower, 334-338

H
habitat
beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
canid habitat use, Arjo and Pletscher, 24-32
Columbia Plateau Caspian terns, Antolos et al., 303-312
habitat associations of mountain quail, Pope et al., 242-249
a linkage zone for grizzly bears, Lukins et al., 168-172
pygmy rabbit habitat, Simons and Laundré, 33-41
road management and Roosevelt elk, Cole et al., 313-321
small mammals in wet meadow habitat, Austin and Pyle, 225-233
wolf relocation, Ratti et al., S9-20, S27-30
HANSEN, MICHAEL. *see* Pope et al., 242-249
HARRINGTON, CONSTANCE A. *see* Wender et al., 124-140
Hells Canyon
chukar and gray partridge food habits, Churchwell et al., 42-47
HENNON, PAUL E. *see* Orlikowska et al., 111-123
herbivores
pygmy rabbit habitat, Simons and Laundré, 33-41
red tree vole distribution, Forsman et al., 294-302
small mammals in wet meadow habitat, Austin and Pyle, 225-233
wolf relocation, Ratti et al., S8-9, S21-27
HESSL, AMY E., and DAVID L. PETERSON. Interannual variability in aboveground tree growth in Stehekin River watershed, North Cascade range, Washington, 204-213
history
north-central Sierra fire regimes, Stephens and Collins, 12-23
wolf relocation, Ratti et al., S6
HORTON, DIANA. *see* Eversman and Horton, 85-92
hydrology
effect of mulch type and width on soil water and survivorship, Link and Bower, 334-338
riparian condition and seston, Elliott et al., 150-157
understory species as soil moisture indicators, Lookingbill et al., 214-224

I
Idaho
chukar and gray partridge food habits, Churchwell et al., 42-47
migration of westslope cutthroat trout, Zurstadt and Stephan, 278-285
pygmy rabbit habitat, Simons and Laundré, 33-41
small mammals in wet meadow habitat, Austin and Pyle, 225-233
INMAN, KRISTINE H. *see* Inman et al., 261-266
INMAN, ROBERT M., RACHEL R. WIGGLESWORTH, KRISTINE H. INMAN, MICHAEL K. SCHWARTZ, BRENT L. BROCK, and JON D. RIECK. NWS Notes: Wolverine makes extensive movements in the greater Yellowstone ecosystem, 261-266

invertebrates
Baker's globe mallow, Arneson et al., 141-149
selective thinning effects on carabid beetles and spiders, Peck and Niwa, 267-277

K
KAYAHARA, GORDON J. *see* Chen et al., 101-110
KLINKA, KAREL. *see* Chen et al., 101-110
KOLBE, JAY A., and JOHN R. SQUIRES. NWS Notes: Long distance movement by a coyote within the Rocky Mountains, 344-345

L
LACKI, MICHAEL J. *see* Baker and Lacki, 234-241
lakes and reservoirs
hatchery kokanee release strategies, McLellan et al., 158-167
small mammals in wet meadow habitat, Austin and Pyle, 225-233
smallmouth bass growth dynamics, Shrader and Weldon, 250-260
upper Columbia River fishes, Gadomski et al., 48-58
LAUNDRÉ, JOHN W. *see* Simons and Laundré, 33-41
LEWIS, STEPHEN B., PETE DeSIMONE, KIMBERLY TITUS, and MARK R. FULLER. NWS Notes: A video surveillance system for monitoring raptor nests in a temperate rainforest environment, 70-74
lichens
postfire lichen and moss colonization, Eversman and Horton, 85-92
LINK, STEVEN O., and ALISON BOWER. Effect of mulch type and width on soil water potential and plant survivorship in a semi-arid riparian ecosystem, 334-338
livestock
wolf relocation, Ratti et al., S39-41
logging
road management and Roosevelt elk, Cole et al., 313-321
LOOKINGBILL, TODD R., NEAL E. GOLDENBERG, and BRIAN H. WILLIAMS. Understory species as soil moisture indicators in Oregon's Western Cascades old-growth forests, 214-224
LUKINS, WILLIAM J., SCOTT CREEL, BRENT ERBES, and GORAN SPONG. An assessment of the Tobacco Root mountain range in southwestern Montana as a linkage zone for grizzly bears, 168-172

M
mammals, large
canid habitat use, Arjo and Pletscher, 24-32
coyote long distance movement within Rocky Mountains, Kolbe and Squires, 344-345
a linkage zone for grizzly bears, Lukins et al., 168-172
road management and Roosevelt elk, Cole et al., 313-321
wolf relocation, Ratti et al., S1-76
Yellowstone wolverine movements, Inman et al., 261-266
mammals, small
beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
eastern Cascades bats, Baker and Lacki, 234-241
natural history of a wetlands engineer (book review), Gaines, 173
pygmy rabbit habitat, Simons and Laundré, 33-41
red tree vole distribution, Forsman et al., 294-302
small mammals in wet meadow habitat, Austin and Pyle, 225-233
marine biology
parasites of juvenile flatfishes, Mole, 339-343
MAULE, ALEC G. *see* Gadomski et al., 48-58
McCOMB, BRENDA C. *see* Suzuki and McComb, 286-293
McLELLAN, HOLLY J., JASON G. McLELLAN, and ALLAN T. SCHOLZ. Evaluation of release strategies for hatchery kokanee in Lake Roosevelt, Washington, 158-167
McLELLAN, JASON G. *see* McLellan et al., 158-167
MENKE, CAROLYN A., and PATRICIA S. MUIR. Short-term influence of wildfire on canyon grassland plant communities and Spalding's catchfly, a threatened plant, 192-203
MESA, MATTHEW G., LISA K. WEILAND, and GAYLE BARBIN ZYDLEWSKI. Critical swimming speeds of wild bull trout, 59-65
methodology
video monitoring of raptor nests, Lewis et al., 70-74
METLEN, KERRY L., CARL E. FIEDLER, and ANDREW YOUNGBLOOD. Understory response to fuel reduction treatments in the Blue Mountains of northeastern Oregon, 175-185
MICHAEL, JOHN H., Jr. NWS Notes: Origin of stray sockeye salmon spawning in western Washington, 66-69
MILLER, CRAIG A. *see* Ratti et al., S1-76
MOLES, ADAM. NWS Notes: Parasites of juvenile yellowfin sole and rock sole in southeast Alaska, 339-343
Montana
canid habitat use, Arjo and Pletscher, 24-32
a linkage zone for grizzly bears, Lukins et al., 168-172
morphology
Sierra Nevada forest floor characteristics, Stephens et al., 93-100
moss
postfire lichen and moss colonization, Eversman and Horton, 85-92
mountain goats
wolf relocation, Ratti et al., S8-9, S21-27
MUIR, PATRICIA S. *see* Menke and Muir, 192-203

N
NAIMAN, ROBERT J. *see* Elliott et al., 150-157
NIWA, CHRISTINE G. *see* Peck and Niwa, 267-277
nutrition
chukar and gray partridge food habits, Churchwell et al., 42-47
Columbia Plateau Caspian terns, Antolos et al., 303-312
riparian condition and seston, Elliott et al., 150-157
smallmouth bass growth dynamics, Shrader and Weldon, 250-260
NWS Notes
coyote long distance movement within Rocky Mountains, Kolbe and Squires, 344-345
parasites of juvenile flatfishes, Mole, 339-343
stray sockeye in Washington, Michael, 66-69
video monitoring of raptor nests, Lewis et al., 70-74
white spruce seed rain, Gilmore and Berger, 75-78
Yellowstone wolverine movements, Inman et al., 261-266

O
oaks *see* forests
Olympic Peninsula
riparian condition and seston, Elliott et al., 150-157
wolf relocation, Ratti et al., S1-76
Oregon
beaver associations with mammals and amphibians, Suzuki and McComb, 286-293
chukar and gray partridge food habits, Churchwell et al., 42-47
